

Digitability™

Preparing students with
cognitive disabilities for our
tech-driven workplace.

digitability.com

Dear

In my efforts to continue to provide the best evidence-based practices and latest resources to my students, I have been researching an **award-winning curriculum called Digitability**- a comprehensive life-skills and work-ready curriculum for students with a very wide-range of disabilities.

Digitability offers a multi-level system of resources and lessons all aligned with evidence-based practices to promote positive and successful behaviors both in and out of the classroom. Here are a few of my favorite Digitability features:

- **Financial literacy and virtual banking platform (1st of its kind!)**
 - Earning dollars
 - Paying bills
 - Purchasing rewards
 - Reviewing bank statements and pay stubs
- **Work Simulations Projects**
 - Resume building and interviewing
 - Practicing workplace behavior
 - Managing tasks
 - Self-advocating and increasing independence
 - Building a portfolio to highlight skills gained
- **1:1 On-demand Teacher Coaching Support**
- **Lesson Plans and Differentiated Activities**
- **IEP Goal Bank and Progress Monitoring Tools.**
- **Technological Literacy & Online Safety**
- **Workplace Communication and Socialization**
- **Self-Regulation for Behavior**

The need to teach students skills for the workplace and prepare them for gainful employment once they leave school is essential. Currently, the national average for employment for individuals with disabilities is 30%. **Of Digitability's first graduating cohort, 70% were successful at finding and maintaining meaningful employment.** As an educator, it is my goal for my students not only to be successful within the four walls of my classroom, but to have life long success once they leave.

I appreciate you taking the time to look into Digitability for use in my classroom and look forward to speaking with you soon.

Sincerely,

Award-winning Work-ready Support Services Include:

At Digitability, we understand that you can not impact student efficacy without teacher fidelity using evidence-based practices. Our model of coaching and professional development is designed to prevent students from regressing or staying at the same level throughout their education.

Teachers receive:

- 1:1 Year-Long Coaching
- Evidence-Based Practices Training
- Rewards Program

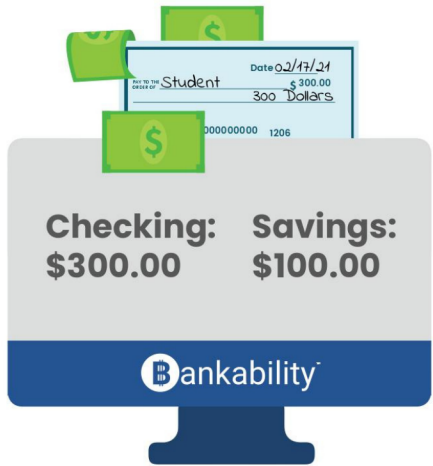

The First Virtual Banking System for Special Education Students

Bankability allows students to experience a modern banking app while learning financial literacy and workplace behavior.

Online Banking is Here!

Bankability works with The Digitability Social Economy, where students earn (and later spend) virtual money for practicing workplace behavior. With Bankability, students now receive direct deposits on payday, review pay stubs and personal bank statements.

Pay Bills and Purchase Rewards

Using Bankability, students manage their checking and savings accounts, pay bills, shop, and review their finances all from their online bank account. Teachers can customize classroom bills and rewards, run payroll, and approve purchase requests all from their Bankability dashboard.

Data & IEP Progress Reports

Bankability also allows teachers to track workplace readiness progress using Digitability's Individual Education Program (IEP) Transition Goal Bank. Assigning each dollar to a behavior will allow teachers to track that behavior overtime. Reports can be generated at the click of a button and shared with their Special Education Team.
