

Opportunity to Complete Field Work with Award-Winning EdTech Company.

Digitability is an award-winning work-ready program that is preparing students for our tech-driven and highly social workplace. For the last six years, the Digitability model has been recognized as an innovative solution to the unemployment crisis facing a large and growing population, and has been featured on MSNBC, CNET, NPR, TechCrunch and showcased at Silicon Valley's Social Innovation Summit.

Digitability prepares students with a work-ready skill portfolio and the social/emotional capacity to persevere; this is helping people with neurodiverse needs overcome existing social and attitudinal barriers to obtaining and sustaining employment.

We are offering this FREE and one-of-a-kind professional development opportunity to pre-service educators. Digitability will collaborate with colleges and institutions to provide academic credit to students this summer for their participation.

Digitability is making this professional development opportunity available to all highly motivated educators and students working to complete their bachelor or master's degree in education or special education. We are currently seeking candidates to participate in Philadelphia, Montgomery, Bucks, Chester and Delaware Counties. **Interested candidates can apply here: digitability.com/fieldwork**

Participants who Complete this Field Work Assignment will earn:

- + Certificate for 30 Hours of Field Work
- + Digitability's Level 1 Training Certification
- + Opportunity to connect and network with schools and current educators

Participants will receive the following professional development and coaching during their field work:

- ✔ Technology integration for Special Education and General Education
- ✔ Effective Classroom Management Coaching
- ✔ Developing Social and Emotional Capacity for Students
- ✔ Principles of Applied Behavior Analysis
- ✔ Evidence-based Practices such as Differentiation, Scaffolding, Task Attendance
- ✔ Developing their aptitude to use new technology in the classroom
- ✔ Data review and analysis to support student mastery
- ✔ Understanding Progress Monitoring for Transition Planning
- ✔ Effective Communication Strategies
- ✔ Developing expressive and receptive language
- ✔ Lesson Planning

All participating candidates are trained, supervised and supported in part by Catherine Chase, MA., L.D.T.C.. Catherine is a renown Psycho-educational Diagnostician and Strategy Interventionist. She is the first educator to receive a Fellowship in Developmental and Behavioral Pediatrics at Harvard Medical School. Catherine has over 30 years of experience in the field of education.
