

Digitability Setting Screen Time Boundaries

This rubric will allow you to monitor your student's progress most efficiently while they are working at home.

If students follow your directions, then they will earn whatever amount of Digitability dollars you deem appropriate. If students do not follow the directions and/or schedule set for them, you can choose to levy a "fine."

If you choose, students can even earn \$2 for every video lesson they complete (and unlock the corresponding badge) and \$1 for each Exit Ticket (emailed home) that they complete. You can also assign alternative values. Parents can even use the Parent Digitability Dollar Tracker (coming soon) to keep track of their student's earnings.

Date	Unit	Lesson	Activity	Reward	Fine
3/20/2020	1. Internet Basics	Lesson 1 and 2 (Internet and Chat, Search, Share)	[Write directions for completing activities you would like students to complete]	[enter the dollar amount students will earn for following directions according to your schedule/ timeline]	[enter the dollar amount students will lose for NOT following directions according to your schedule/timeline]
