The First Virtual Banking System for Special Education Students

Powered By
Digitability

Bankability allows students to experience a modern banking app while learning financial literacy and workplace behavior.

Online Banking is Here!

Bankability works with The Digitability Social Economy, where students earn (and later spend) virtual money for practicing workplace behavior. With Bankability, students now receive direct deposits on payday, review pay stubs and personal bank statements.

Pay Bills and Purchase Rewards

Using Bankability, students manage their checking and savings accounts, pay bills, shop, and review their finances all from their online bank account. Teachers can customize classroom bills and rewards, run payroll, and approve purchase requests all from their Bankability dashboard.

Data & IEP Progress Reports

Bankability also allows teachers to track workplace readiness progress using Digitability's Individual Education Program (IEP) Transition Goal Bank. Assigning each dollar to a behavior will allow teachers to track that behavior overtime. Reports can be generated at the click of a button and shared with their Special Education Team.

IMMEDIATE FEEDBACK

Digitability
Be work ready!

WHAT?

Immediate Feedback is a method to encourage and motivate for your students in a classroom setting.

WHEN?

Deliver immediate feedback constantly. As students are preparing for their transition to independence, it is essential that your classroom is transformed into a work environment. Use immediate feedback once you have established expectations and boundaries for the classroom workplace.

HOW?

Using a consistent verbal formula to communicate and reinforce expectations, will help students develop self-regulation strategies.

EXAMPLES:

“[Student name] + [behavior] + [consequence] + [reward/replacement behavior].”

Yes, Marcus! A URL is a website address. Nice job earning a participation dollar.”

“[Student name] + [behavior] + [consequence] + [reward/replacement behavior].”

Marcus, that's an interruptions. Interruptions cost \$1. Next time, wait to be called on to give your answer and earn a dollar.”

It is important to remember that we are reinforcing the positive behavior and not having a correct answer. The goal is for students to be active participants in their work setting. Teachers may use differentiation and/or prompting techniques to assist students in selecting a correct answer.
