July Week 3 Electronic Greetings

Instructions:

- 1) Explain that greeting cards are a fun way to let someone know you are thinking about them. Ask students if they have ever received a greeting card (birthday card, holiday card, get well soon card, etc).
- 2) Tell students that electronic greeting cards are similar to greeting cards, except they are delivered via email..
- 3) Distribute work sheets to students.
- 4) Inform students that they will be creating their own examples of electronic greeting cards on the worksheets..

Differentiated Instruction:

- Tier 1: Students will write an email to someone of their choosing to share a greeting card. They will cut out images provided and glue them into the email body box and write their own message with at least three full sentences. They will create an appropriate subject line and add the email address (if known) in the correct fields.
- Tier 2: Students will identify the email body, recipient field, and subject line. They will cut out images provided and glue them into the email body box. They will write an email message to someone of their choosing to share a greeting.
- Tier 3: Students will point to the email body, recipient field, and subject line. They will cut out an image and the matching message to send a greeting to someone of their choosing..

Incorporate Bankability:

- Students may receive Bankability dollars for identifying the parts of an email.
- Students may receive Bankability dollars for following directions and participating.
