

Digitability™

May Week 1 Password Safety

Digitability is the only scalable, STEM-focused model that continues to be recognized as an innovative solution to the unemployment crisis facing a large – and growing – population of those with disabilities. **Whereas less than 30% of people with disabilities are employed, 70% of Digitability graduates obtain full-time employment.**

Something for EVERY Student: The needs of individuals who participate in Digitability run the gamut. All of your resources are extensively differentiated to support a wide range of cognitive, communication and behavioral needs.

Reduce Time Planning & Progress Monitoring: Digitability manages your existing special education priorities into a streamlined process. We have all the tools to enhance existing programming or serve as a foundation for innovative programming at any school or in any classroom.

Program Resources Include:

- ✓ **700+** Digital Literacy Lesson Plans
- ✓ **200+** Social, Communication & Behavior Resources
- ✓ **600+** Workplace Readiness Activities
- ✓ **100+** Functional Academic Resources
- ✓ **900+** Interactive Online Activities
- ✓ IEP Goal Bank and Progress Reports
- ✓ Data Dashboard to Track IEP Transition Data
- ✓ Year-long, teacher coaching on Evidence-based Practices

Earn Amazon Gift Cards! Our teacher coaching and professional development services reward each teacher with Amazon Gift cards throughout their process of achieving mastery of evidence-based practices and improving transition outcomes for students.

JOBS

Students Obtain Full-Time Employment: Each student graduates with a work-ready, skills-based portfolio and the social/emotional ability to persevere, self-regulate and self-advocate in learning environments that simulate “real-world” workplace settings. Digitability’s program for today’s modern workplaces has been featured on **MSNBC, CNET, NPR, TechCrunch, Ted Talks**, and showcased at **Silicon Valley’s Social Innovation Summit**.

Password Safety

Directions: Read or listen to the passage about passwords; use the information in the passage to answer the questions.

When it comes to passwords, it's important to keep them safe and secure. You should only share your passwords with trusted adults, like family members or teachers, who can help you with online accounts. It's not a good idea to use your name, birthday, or address as a password because they're easy for others to guess. Instead, try using a mix of uppercase and lowercase letters, numbers, and symbols to make your password strong and hard to crack. Keeping your passwords secure is important because they protect your personal information and keep your online accounts safe from people who might want to do harm. So remember, keep your passwords to yourself and make them strong!

1. Who should you safely share your passwords with?

2. Why should you not use your name, birthday, or address as a password?

3. What can you use in your password to make it difficult for people to guess?

4. Why do you need to keep your passwords secure?
