UNIT 2: BROWSER BASICS LESSON 14: MASTER BADGE

LESSON OVERVIEW

A browser lets you view websites. Google Chrome, Safari, and Internet Explorer are types of browsers that look similar and do the same things like viewing and using the Internet. Each browser has an icon that represents them. Double-click the browser icon to open your browser. A browser is the square that is the outside of the website. A URL is a website's address. An address bar is a white and long rectangle at the top of a browser window. The delete key is a key located on my keyboard with the word delete or backspace. The enter key is a key on your keyboard that you use after you type the URL into the address bar. Browser icons and buttons help us move around the Internet. Back and forth buttons help you move from one page to another. The refresh button is a button that reloads the webpage that you are viewing to your browser window.
