

# Your Student's Account

Your learner will be able to access their account to start their lessons and begin unlocking badge. Students engage with the learning platform through their student account.

- 1 Students log in to your organization's Digitability account by clicking **Login**.
- 2 Student enters username and password that you created.
- 3 Students will begin their lessons by clicking on the badge that is unlocked.
- 4 Once the student finishes watching the video, they can move on to the activity.
- 5 Once they successfully complete their activity, they earn a badge and unlock the next lesson.

The screenshot shows the Digitability login interface. At the top is a blue header with the Digitability logo and a 'Signup' button. Below the header is a green bar with the text 'Login to Your Account'. The main form contains two input fields: 'Username' and 'Password'. Below the password field is a blue 'login' button and a link that says 'Forgot your password?'. Red arrows point from the numbered list items to these elements: Item 1 points to the 'login' button; Item 2 points to the 'Username' field; Item 3 points to the 'Forgot your password?' link; Item 4 points to the 'Password' field. Text annotations on the right side of the form state: 'Username = Email' (pointing to the username field), 'Password: is case sensitive' (pointing to the password field), and 'Forgot password' (pointing to the forgot password link).

## BADGE LIBRARY

Your student can view all of the badges they earned by visiting their Badge Library. Once a student completes a lesson, they can visit their Badge Library to practice their skills.

## PACING STUDENT ENGAGEMENT ONLINE

Digitability designed a system to meet the needs of each individual and to allow them to work through lessons at their own pace. To ensure that real learning is occurring, we pace our curriculum at one unit per week. It may take some learners more time to complete a unit. Your Implementation Coach can help you plan. The pace of student online progress should align to your facilitation of lesson plans. When allowing students to complete independent practice in their online Digitability accounts, remember to set boundaries and stop points so students do not go too far ahead.

If you have trouble logging your Digitability Student into their account, please contact [info@digitability.com](mailto:info@digitability.com).
